

Certified Arborist Workshop and ISA Exam

Rolling Hills RC&D is offering a one-day arborist workshop and ISA (International Society of Arboriculture) Certified Arborist exam on August 8-9, 2008.

This course is designed to be a refresher course for individuals intending to take the ISA exam. The exam will be offered on the day (Saturday) following the workshop.
You are welcome to attend the Friday workshop and are not required to take the exam on Saturday.

This course is not intended for beginners in tree care; however it is an excellent class for people already in the tree care industry to expand their knowledge.
