

Kevin Blond

*Director of Operations; T2
Group*

My name is Kevin Blond, and I am the Director of Operations for T2 Group, LLC. out of Marietta, GA. T2 Group is a vertically integrated organization in the urban forestry industry serving clients who value integrity and excellence. We are a high production residential and commercial full scope company that offers arborist and tree services, stump grinding and green waste services with our grapple trucks and experienced operators. With so much offered in house as it relates to trees and the tree care industry... all the byproduct we produce is ours to deal with. At T2 Group, we believe there is a smart, sustainable, and efficient way to tackle those challenges.

Establishing trusting and strategic relationships with vendors who reuse, re-purpose or up-cycle these byproducts is a critical part of our sustainability efforts AND it directly impacts our operational efficiency. Over 85% of our wood byproduct is going somewhere other than the trash and we aim for that volume to only increase as we grow!
